GERMAN DELEGATION

COCOM DOCUMENT 3440

Paris, February 4, 1959

4263060

6R

MEMORANDUM

BY THE GERMAN DELEGATION ON THE EXPORT
TO HUNGARY OF DIPHENYLAMINE

The German authorities have received a request to license the export to Hungary of

340 kg Diphenylamine,
chemically pure,
covered by item 17(3 b),
valued at \$412.-

The material will be used for medical purposes (production of Antihistaminica and Neuroplebica).

In this connection, it may be mentioned that the same product is being offered by Czechoslovakia at very favorable prices.

This case is submitted under the De-Minimus-procedure (Cocom Doc. 1473 A b). In view of the small value involved and the civilian end-use of the product, the German authorities trust that no objections will be raised against this export.

The German Delegation would appreciate if the time-limit for comments, if any, could be curtailed to 14 days and propose, therefore, to grant the license if, as they hope, no objections will be raised by the 18th March 1959.
